COVER STORY: The throaty roar of a prime mover working hard echoes off the walls of nearby buildings. A haze of exhaust hangs in the air that carries the sharp and sudden protests of steel wheels meeting curves. Slowly, the engine crawls through a maze of switches and sidings, easing its way out of the yard and back to the main line. Great layouts start with great track that tells the story of your railroad like no other model. The layout seen on the front of this month's Flyer features just a small section of the impressive 26 scale mile club layout run by the North American Prototype Modelers, Ltd. right here in Milwaukee, WI!
